

Subject: ITWorks - Free IT Career Training - Accepting Applications!

Happy New Year! We are getting the word out to community partners across Philadelphia that the [ITWorks](#) tech training program is accepting applications for our Spring 2022 semester. ITWorks program accepts candidates from Philadelphia and the surrounding counties. Any candidates from the surrounding counties would just need to be able to commute into Philly for our in-person class times. We typically hold classes in a central location in Philly that is close to bus and train lines.

ITWorks participants receive 11 weeks of technical training, plus a 5-week, hands-on internship with a local corporation or non-profit. Throughout the program, participants receive professional development training with volunteers from local corporations like Accenture, WSFS Bank, Oracle and more.

Eligible candidates:

- ♦ are 18-26 years old
- ♦ have a high school diploma or GED
- ♦ do not have a 4-year college degree
- ♦ are interested in a career in technology

Our Spring 2022 semester will be delivered in a hybrid model with a few days in person and a few days virtual each week. The semester runs from February 22 – June 10, 2022. We are requiring participants to be vaccinated and will provide laptops for remote learning. If there is anyone in your community who might be interested in this training, please encourage them to apply at itworks.org/apply.

If you have any questions, please let us know. Thank you for helping to spread the word!
